DEPTH: 5

HEIGHT OF EYE: 22 UWH

GRT 52 t

NRT 52 t

BRIDGE EQUIPMENT:

GPS

VHF RADIO

RADAR

NAVTEX

Depth Sounder

SSB

Notes: This pushboat was built by BAI as an improvement on its first pushboat, Mantis. It has a one of kind azimuthing drive outboard style propulsion unit. Burnham has completed dozens of projects with its nimble maneuverability and solid pushing power. This vessel is highly sought after in the marine construction community and for well reason.
